Declaration on Conflict Minerals

OJ Electronics A/S is committed to ensure that minerals contained in our products are sourced with due respect for human rights, the need to avoid contributing to conflict and the desire to support development through our supply chain practices.

The so-called Conflict Minerals (Tantalum, Tin, Tungsten and Gold) pose a specific challenge, as mentioned, inter alia, in the U.S. Dodd-Frank Act, section 1502 and Regulation (EU) 2017/821.

We aim to avoid that any of these minerals used in our products are sourced in a way that finances conflicts in the Democratic Republic of Congo (DRC) or adjoining countries.

We do not source any of these minerals directly. Therefor our efforts are concentrated on ensuring that our suppliers are committed as we are.

We have traced smelters back in our supply chain and can provide our customers with a completed Conflict Minerals Reporting Template (CMRT) upon request.

Best regards
OJ ELECTRONICS A/S
