

Environmental Policy

1 Scope

This policy applies to all activities initiated by OJ Electronics A/S in order to bring forth products and services to the market. The policy covers the entire value chain and all product life cycle phases, although our ability to influence environmental aspects varies for different parts of the value chain and life cycle.

2 Purpose

The purpose of this policy is to describe and convey the position that OJ Electronics A/S takes on environment and to determine the overall objectives, tasks and responsibilities connected to handling of environmental aspects.

4 Position and objectives

Green vision

OJ Electronics will continue to develop intelligent solutions, which provide maximum comfort with minimum energy consumption.

Green strategy

To OJ Electronics, sustainability is a business approach that aims to achieve the best possible outcome not just for ourselves, but for our stakeholders and the environment too.

Impact

In all our business decisions and processes, we at OJ Electronics seek to strike a responsible balance between economic, human, and environmental considerations.

Objectives

We are aware of our environmental aspects. When thinking environment, we include considerations for the climate.

We fulfil our compliance obligations, and our overall objectives are to:

- emphasise sustainability when we select partners and suppliers (UN-SDG 8.4).
- continuously strive to reduce environmental impact from our products during design, production, transportation, use and disposal (UN-SDG 12.2; 12.5).
- use our resources prudently, saving electricity, water, and heat (UN-SDG 7.3).
- recycle and sort waste where possible (UN-SDG 12.5).
- keep OJ Electronics A/S certified according to ISO 14001.

Environmental Policy

Our basic goals are:

Annual consumption of electricity does not exceed 2024 level - 453.762 kWh

Annual consumption of water does not exceed 2024 level - 5,3 m3/employee

Annual consumption of district heating does not exceed 2024 level - 2279,53 GJ

5 Responsibilities

Top management group, managers, and employees each have tasks and responsibilities to put this policy into practice, according to business procedure 810 001 "Environment".
